

# INDEX.

## A

- Abscess, hepatic, 192, 212.  
 Accessory supra renal capsules, 190.  
 Acetabulium, fracture of, 481.  
 Adam on peresquinitrate of iron, 61.  
 Addison on disorders of the brain connected with diseased kidney, 442.  
 Albany Medical College, 523, 528.  
 Albinos, 517.  
 Amputation, spontaneous, of limbs of fetus in utero, 252.  
 Ankylosis of cervical vertebra, 484.  
 Anesthesia, 433.  
 Aneurism from anastomosis, Watson on, 23.  
 — by anastomosis, cured by twisted suture, 395.  
 — of iunominata, 225.  
 Angina pseudomembranacea, 73.  
 Annan's report, 314.  
 Antonini on sulphate of quinine in the form of ointment, for the cure of malignant intermitents, 445.  
 Arnott's case of disease of lining membrane of tympanum, 491.  
 Arsenic, poisoning with, successfully treated, 243.  
 Artificial pupil in the sclerotica, 163.  
 Asthma, laryngeal, 205.  
 Asylum for relief of insane at Frankford, account of, 13.

## B

- Baltimore alms house, report of cases in, 314.  
 Bartlett's case of cerebral affection, 42, 522.  
 Beck's valedictory address, 431.  
 Belladonna plaster, 450.  
 Bertolini and Bonacossa's statistics of royal insane hospital of Turin, 414.  
 Billing's first principles of medicine, 145.  
 Bird on manner in which carbonic acid produces death, 505.  
 Births, greater number of still born in illegitimate than in legitimate, 251.  
 Bischoff on transfusion of blood, 437.  
 Bladder, irritable, 450.  
 — paralysis of, 450.  
 Blood, transfusion of, 437.  
 — experiments on, 458.  
 Brain, disease of, connected with disease of the kidneys, 442.  
 Bricheau on caustic issues in phthisis pulmonalis, 460.

No. XLVIII. AUGUST, 1839.

- Bronchocele cured by croton oil, 464.  
 Buclanian on etiology of spontaneous amputation of limbs of fetus in utero, 522.  
 Burdach's case of cartilaginous condition of neck of uterus, 507.  
 Burgess on spasm of the glottis, 205.  
 Burne on phlegm:isia dolens, 455.  
 Burns and scalds, 481.

## C

- Calculus, statistics of, 508.  
 Campbell's case of laryngitis and bronchocelle, cured by croton oil, 462.  
 Camphor, medical properties of, 198.  
 Carbonic acid, effects of respiration, 244.  
 — gas, manner in which it causes death, 505.  
 Carpenter on malignant pustule, 259.  
 Carson's address, 431.  
 Carmichael on position of placenta in the womb, 242.  
 Catoptrie examination of eye, 255, 513.  
 Caustic issues in phthisis pulmonalis, 460.  
 Cerebral affection—double consciousness, 42, 522.  
 Cervical vertebra, ankylosis and dislocation of, 484.  
 Chapman's introductory lecture, 184.  
 — on diseases of the liver, 347.  
 Child at birth of enormous size, 504.  
 Cholera infantum, 301.  
 Chronic diseases, 422.  
 Churchill's outlines of the principal diseases of females, 394.  
 Cincinnati College, 527.  
 Club-foot, Garlein's case of, 257.  
 —, Krauss on, 491.  
 Coathupe on effects of respiration carbonic acid gas, 244.  
 Coathupe's experiments on products of respiration at different periods of the day, 439.  
 Coley's case of luxation of radius, 232.  
 Connecticut Medical Society, 429.  
 Convention for revising the Pharmacopœia, 527.  
 Cooper on burns and scalds, 481.  
 Copiaiba, syrups of, 445.  
 Corrigan on paralysis of first and second branches of the sensitive root of fifth pair nerves, 451.  
 Coudret on medical electricity 176.  
 Cowan's vital statistics of Glasgow, 246.

- Crompton on injury of eye by percussion-caps, 499.  
 Croton oil, remedial powers of, 445.  
 Cunier on hemeralopia, 242.
- D**
- Darrach's report, relative to diseases of the eastern penitentiary, 179.  
 Davidson on hydrocele, 235.  
 —— case of malignant ulcer, 237.  
 —— causes and treatment of erysipelas, 238.  
 Davy's experiments on the blood, 438.  
 —— on fluid of vesicule seminales, 187.  
 De Luz, on kerosene, 201.  
 Deafness from disease of lining membrane of tympanum, 491.  
 Decidua, veins of uterine, 188.  
 Delivery, unconscious, 243.  
 Dental Science, American Journal of, 528.  
 De Roos's statistics of calculous diseases, 508.  
 Desault's apparatus for fractures, 235.  
 Deslandes on oanomia, 426.  
 Deville's case of poisoning with arsenic, 213.  
 Dezeimeris on revaccination, 252.  
 Diefenbach on cure of wry neck, 226.  
 Diphtheritis, 73.  
 Dislocation of radius, 232.  
 —— of humerus, 236.  
 Dropsy encysted of thyroid gland, 224.  
 Duhat on hydrocele, 251.  
 Dunglison's medical lexicon, 429.  
 Dunmel's report of interments in New York, 423.  
 Durner on malformation of placenta, 436.
- E**
- Electricity, medical, 176.  
 Emetics, efficacy of, in facial paralysis, 211.  
 Epilepsy, ease of, 67.  
 Ergot, method of determining purity of, 196.  
 Erysipelas, causes and treatment of, 238.  
 —— raw cotton in, 490, 521.  
 Evans's account of asylum for relief of the insane at Frankford, 13.  
 Exostosis of pelvis of rapid growth, 191.  
 —— lower jaw, 516.  
 Eye, catoptric examination of, 255, 513.  
 —— recent works on diseases of, 427.  
 —— wound of, by percussion-cap, 281, 298, 498.
- F**
- Fearn's case of aneurism of innominate, 225.  
 Fisher's edition of Laennec on diseases of the chest, 178.  
 Fistula, vesico-vaginal, 283.  
 Flint's address, 431.  
 Fricke's successful employment of immovable apparatus in fractures, 495.
- G**
- Gallup's institutes of medicine reviewed, 575.  
 Garden's case of club-foot, 257.
- H**
- Geddings on diphtheritis, 73.  
 Girardin on treatment of quinsy by scarifications, 459.  
 Glasgow, vital statistics of, 246.  
 Glaucoma, Mackenzie on, 240.  
 Gluttis, spasm of, 205.  
 Graves's case of hepatic abscess, 192.  
 —— on neuralgia of testicle, 204.  
 —— method of preparing sinapisms, 204.  
 —— treatment of hypertrophy of tonsils, 205.  
 Griscom's case of abstraction of uterus after delivery, 518.  
 Grunin's case of prolapsus of pregnant uterus, 307.  
 Guy's experiments on the pulse, 438.
- I**
- Hall's case of unconscious delivery, 243.  
 Hamilton on treatment of scarlet fever, 475.  
 Hays on catoptric examination of eye, 255, 513.  
 —— report of cases treated in Will's hospital, 265.  
 —— ease of dislocation and absorption of lens from wound of the eye by a grain of wheat, 513.  
 —— extraction of foreign body from the eye, 514.  
 Haywarril's case of vesico-vaginal fistula, 283.  
 Heart diseases not seated in the heart, 222.  
 —— Wardrop on diseases of, 419.  
 Haemorrhage, Stilling's new process for arresting, 172.  
 Hemeralopia, 242.  
 Hepatitis, 347.  
 Hepaticula, 565.  
 Heiller on emetics in facial paralysis, 211.  
 Heriot's hospital, scarlet fever in, 463.  
 Hilton on discussion of fibres at the junction of the medulla spinalis and m. oblongata, 437.  
 Hodgkin on mucous membranes, review of, 129.  
 Hulse's case of bite of spider on glans penis, 69.  
 Hufeland on parenties in form of vapour, 221.  
 —— on heart diseases, 222.  
 Humerus, dislocation of, 236.  
 Hydrocele, 231, 235.
- J**
- Jackson on hepatic abscess, 212.  
 —— ease of twin fetus, 256.  
 —— introductory lecture, 431.  
 Jorg on greater number of still-born in illegitimate than in legitimate births, 251.  
 Journal of the medical convention of Ohio, 429.

## K

- Kermes mineral as an emetic and purgative, 195.  
 Knee, fungus of, 425.  
 Krauss on congenital club-foot, 491.  
 Kreosote, value of, as compared with other remedies, 201.

## L

- Laennec on the chest, 178.  
 Lafargue on phrenology, 165.  
 Laryngitis cured by ericot oil, 462.  
 Lawrence's case of exostosis of pelvis, 191.  
 ——— dislocation of humerus, 236.  
 Lawson's report, 258.  
 Laycock on belladonna plaster, 450.  
 ——— on external application of colchicum in rheumatism, 450.  
 ——— on lycra in vesical paralysis, 445.  
 Lederle on fungus of the knee, 425.  
 Lee on veins of uterine decidua, 188.  
 ——— ophthalmic surgery, 427.  
 ——— new vaccine virus, 522.  
 Leg, deformity consequent on fracture, 334.  
 Lendrick's case of fracture of acetabulum 431.  
 Lindsly on cholera infantum, 501.  
 Liston's practical surgery, 179.  
 Liquor amnii, analysis of, 252.  
 Liver, abscess of, 192, 212.  
 ——— diseases of, 347.  
 Logan on scarlatina, 71.  
 Loxarthrus, Mutter on, 178.  
 Lunatic paupers in England and Wales, 251.

## M

- Mackenzie on glaucoma, 240.  
 ——— sympathetic iritis, 504.  
 Maclellan's case of aneurism by anastomosis, 495.  
 Magill on scarlet fever, 341.  
 Malcolmson's case of varula, 493.  
 Malgaigne on fractures of the ribs, 485.  
 Malignant pustule, 239.  
 ——— intermittents, ointment of sulphate of quinine in, 445.  
 Marey's case of partial sweating, 66.  
 ——— case of Albinos, 517.  
 Massachusetts general hospital, 262.  
 Medical Lexicon, 429.  
 Medicine, first principles of, 155.  
 Middlemore's treatise on diseases of the eye, 427.  
 Miner's address, 431.  
 Minutes of Medical Society of Tennessee, 429.  
 Monot, gastrotony for cure of ileus, 233.  
 Morgan's lectures on diseases of the eye, 427.  
 Mortality, periodical, of human race, 250.  
 Mott's gleanings, 367.  
 Mouhon's formula for syrup of copaiba, 445.  
 Mucous membranes, Hodgkin on, 129.  
 Mutter on loxarthrus, 187.

- Narcotics in form of vapour, 221.  
 Negro poisoning, 514.  
 Neuralgia of the testicle, 204.  
 New York, report of interments in, 423.  
 ——— transactions of medical society of, 429.  
 ——— Journal of Medicine and Surgery, 528.  
 Norris's edition of Liston's surgery, 179.

## O

- Œsophagus, cancer of, 58.  
 Ohio, medical convention of, 430.  
 Onanism, Deslandes on, 426.  
 Ophthalmic report, Hays's, 265.  
 Osborne on irritation of the stomach, 201.  
 Osiaander on puerperal fever, 447.  
 ——— on inflammation of umbilical vein in infants, 461.  
 Osteo-sarcoma of lower jaw, 260.  
 Os interi, obliteratio of, 236.  
 Owens's case of enormous fetus, 504.

## P

- Parker on ulceration of stomach, 214, 215.  
 Parry's operation for remedying deformity of the leg, resulting from a badly set fracture, 334.  
 Pelvis, exostosis of, 191.  
 Pereira's elements of materia medica, 415.  
 Peresquinitrate of iron, remedial powers of, 61.  
 Phillips on division of prostrate gland in lithotomy, 223.  
 Phlegmatis dolens, 455.  
 Phrenology, Lafargue on, 168.  
 Phthisis pulmonalis, caustic issues in, 460.  
 Physick, Randolph's memoir of, 93.  
 Placenta, position of, in the womb, 242.  
 ——— malformation of, 436.  
 Poisoning, Negro, 514.  
 Porter's case of epilepsy, 67.  
 Proceedings of Connecticut Medical Society, 429.  
 Prostate gland, division of, in lithotomy, 224.  
 Prussian bills of mortality, 509.  
 Puerperal fever, 447.  
 Pulse, Guy's experiments on, 458.

## Q

- Quinney, treated by scarification, 459.

## R

- Rainy on urea in the blood in cholera, 251.  
 Randolph's memoir of Physick, 93.  
 Ranula, 493.  
 Raw cotton in erysipelas, 499, 521.  
 Rees's analysis of liquor amnii, 252.  
 Regnoli, extirpation of tongue, 252.  
 Respiration, products of, at different periods of the day, 439.  
 Revaccination, 252.

- Reynaud on raw cotton in erysipelas, 490.  
 Ribs, fractures of, 585.  
 Robertson on treatment of erysipelas by raw cotton, 521.  
 Rodrigues's case of exostosis of upper jaw, 516.  
 Roget's outlines of physiology and phrenology, 432.  
 Rognetta's course of ophthalmology, 427.  
 Ronemberg's case of anesthesia, 433.
- S
- Scarlatina as it occurred in the orphan house, Charleston, 71.  
 — in valley of Virginia, 341.  
 — in Edinburgh, 463, 474, 475, 478.  
 — prevalence and mortality of, in some public institutions in Edinburgh, 474.  
 — anginosa, treatment of, 475.  
 Sebastian on venous circle of mammary areola, 190.  
 — on accessory supra renal capsules, 190.  
 Selwyn on dropsy of thyroid gland, 224.  
 Sewall's case of wound of eye by percussion-cup, 288.  
 Sichel on ophthalmia, &c., 427.  
 Sidey on scarlet fever, 478.  
 Sigmund on medical properties of zinc, 196.  
 — camphor, 198.  
 — on croton oil, 445.  
 Silver spoon swallowed, discharged through an abscess in epigastrium, 195.  
 Sinapism, method of preparing, 204.  
 Solon on albuminuria, reviewed, 403.  
 Somervail on Negro poisoning, 514.  
 Somnambulism, 185.  
 Spider, bite of, on glans penis, 69.  
 Stanley's case of dislocation and ankylosis of cervical vertebrae, 484.  
 Stilling on artificial pupil, 163.  
 — new process for arresting hemorrhage, 172.  
 Stecher's manual of ophthalmology, 427.  
 Stomach, wound of, 261.  
 — perforation of, from morbid causes, 440.  
 — irritation of, 201.  
 — ulceration, 213, 215.  
 Sudden death, Warren on, 294.  
 Sulphate of quinine, ointment of, 445.  
 Suringar on chronic diseases, 422.  
 Sweating, partial, 66.  
 Submaxillary gland, case in which it was extirpated, 493.  
 Suetin's immovable fracture apparatus, 495.  
 Spontaneous amputation of limbs of fetus *in utero*, 522.
- T
- Taylor on perforation of the stomach, 440.  
 Telangiectasis, Watson on, 24.
- Tennessee, medical society of, 429.  
 Testicle, neuralgia of, 204.  
 Thyroid gland, 224.  
 Tongue, extirpation of, 232.  
 Tonsils, hypertrophy of, 205, 523.  
 Toumouche on kernels mineral, 195.  
 Transactions of the Medical Society of New York, 429.  
 Trinchetucci on turpentine in diseases of the eye, 242.  
 Turpentine in diseases of the eye, 242.  
 Twin fetus, one expelled prematurely, the other retained to full term, 256.  
 Tympanum, diseases of living membrane of, 491.
- U
- Ulcer, malignant, 237.  
 Umbilical vein, inflammation of, 461.  
 Urea in the blood in cholera, 251.  
 Uterine decidua, veins of, 188.  
 Uterus, manner in which it expands, 242.  
 —, cartilaginous condition of neck of, 507.  
 —, prolapsus of, 507.  
 —, abstraction of, after delivery, 518, 520.
- V
- Vaccine virus, new, 258, 522.  
 —, memorial to congress to allow it to be conveyed by mail free, 528.  
 Veins of uterine decidua, 188.  
 Venous circle of the mammary areola, 190.  
 Verdet's case of natural somanambulism, 185.  
 Vesico-vaginal fistula, case of, 283.  
 Vesiculae seminales, fluid of, 187.  
 Virginia, University of, 527.
- W
- Wardrop on diseases of the heart, 419.  
 Wardleworth's method of determining purity of ergot, 196.  
 Warren's case of sudden death, 294.  
 — on enlargement of tonsils, 523.  
 Watson on telangiectasis, 24.  
 Weber's case of closure of os uteri, 256.  
 White's lunatic asylum, 262.  
 Wills's hospital, report of cases treated in, 265.  
 Wood on scarlet fever of Edinburgh, 463.  
 Wort's case of osteo-sarcoma of lower jaw, 260.  
 Wound of stomach, 261.  
 Wry neck, cured by dividing sterno-cleido-mastoid muscle, 226.  
 Wyman's case of cancer of oesophagus, 58.
- Z
- Zinc, medical properties of, 196.
